Product Categories.

• APPLICATION SECURITY

Refers to security measures implemented at the application level of an organization's technology stack. It involves the use of software, hardware, as well as procedural methods to secure applications from cyber and technology threats.

• AUDIT, CONSULTING, & TRAINING

Provide security practitioners with an understanding of the audit process and risk professionals with an understanding of cybersecurity-related threats and mitigating measures.

• CLOUD SECURITY

Refers to the policies and controls of securing cloud-based systems, applications, and information against unauthorized access, (DDOS) attacks, malware, and other risks whilst supporting regulatory compliance.

• DATA SECURITY & CRYPTOGRAPHY

Is a concept that incorporates every facet of information security from the physical security of hardware and storage devices to access controls and the logical security of software applications.

• ENDPOINT SECURITY

Is an integral element of the modern security stack and the crucial last line of defense in preventing cyberattacks from compromising applications and operating systems and in protecting confidential information from falling into the wrong hands.

• GOVERNANCE & COMPLIANCE

Are the integrated collection of capabilities that allow an organization to reliably accomplish objectives, tackle uncertainty, and progress with integrity.

• IDENTITY ACCESS MANAGEMENT

Is a security framework that enables organizations to identify a network user and monitor their responsibilities and access rights, and the scenarios under which the privileges are granted or denied.

• INDUSTRIAL NETWORK SECURITY

Inspects the specific protocols and applications that are the basis of industrial control systems and equip organizations with solid guidelines for their protection.

• INFRASTRUCTURE SECURITY

Comprises the protection from a traditional cyberattack and the protection from natural disasters and other catastrophes. The main idea is to enhance security measures, alleviate the amount of downtime and compliance costs.

• MOBILE & WEB SECURITY

Refer to the measures taken against malicious applications, ransomware, malicious websites, unsafe Wi-Fi networks, illicit access to digital devices and systems.

• OPERATIONAL & OUTSOURCING SERVICES

Are externally handled services that appoint cybersecurity experts to handle the organization's cybersecurity needs and provide extra services to help organizations recover from a cyber incident.

• RESILIENCE & DATA PROTECTION

Are associated with protecting organizational assets in the event of a disaster and data corruption and ensuring that the complete data ecosystem is not compromised.

• SECURITY ANALYTICS

Is a proactive approach to security that applies data collection and analysis capabilities to carry out essential security functions that detect, investigate, and tackle cybersecurity threats.

• SECURITY AUTOMATION

Enables security teams to automate low-level and time-consuming tasks with the intent of executing protections faster, improving the workflow of security operations and therefore, achieving enhanced efficiency.

**BECOME A
CYBER SECURITY SPECIALIST
WITH SWISS FEDERAL DIPLOMA**

WHEN YOU STUDY FROM THE
BEST, YOU BECOME THE BEST.

Our educational programs include hands-on training, designed with practice-oriented case studies, real-world challenges in our own Ethical Hacking Lab.

WWW.SWISSCYBERINSTITUTE.COM/EDU

**ENROLL
Now**

Swiss Cyber Institute.

Based in Switzerland, home of global standards and trust, the **Swiss Cyber Institute (SCI)** stands out as a human-centric education provider that focuses on helping society build a secure ecosystem. Relying on its industry-leading cybersecurity network, SCI offers training and access to an exclusive global cyber security community, while hosting international conferences that build bridges between security professionals, business experts, and academics.

Swiss Cyber Institute's ambition is to improve the digital safety and security of society and economy through networking events, articles, research, and publications.

Cyber Tech Vendor Report 2022.

This is the 2022 edition Cyber Tech Vendor Report of Switzerland. The unique **Cyber Tech Vendor Report** is designed to assist decision-makers and security buyers to explore new products, solutions, and partners in the world of cyber security. Our dedicated collection of vendors is intended to support businesses in Switzerland that are considering enhancing their cyber security across a range of technology domains.

Our goal is to bring transparency to the Swiss Cyber Market and expand the cybersecurity ecosystem inside and outside Switzerland. There has been a rise in cyber threats and businesses need to ensure their defences are prepared for cyberattacks. Browse through this excellent resource to learn more about the companies that offer the best-in-class solutions that can help your business stay one step ahead of cybercriminals, ensuring that your critical digital assets remain safeguarded and protected.

The report is being distributed widely in Switzerland and is available for free download on our website.

COMING SOON

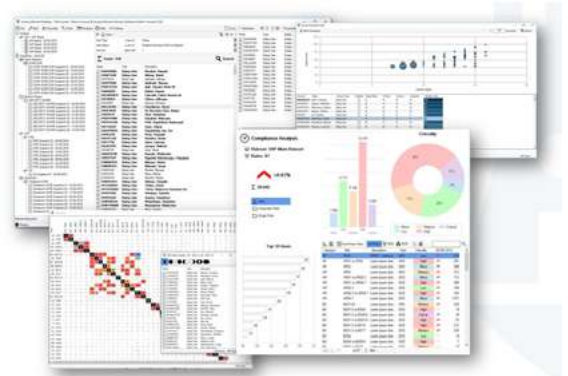

Access Informer Security Solutions AG

www.accessinformer.com

- **Location:** Zug - Switzerland
- **Leadership:** Cyril Hauppert: CEO
- **No of Employees:** 3
- **Product Categories:** Audit, Consulting & Training, Governance & Compliance, Security Analytics
- **Type:** Vendor
- **Description:** Access Informer is a Cybersecurity solution to collect, analyze and monitor user authorizations across key systems, including SAP, Active Directory, SharePoint and network shares. We provide a simple and cost-effective solution to help companies regain visibility and control over "who has access to what", get alerted on excessive or suspicious authorizations, reduce reputational risk from potential fraud and data leakage, and reduce the effort to meet compliance and regulatory requirements (e.g. SOX, GDPR).

Nominated for the 2019 PwC SecTech award, participated in 2019 Tech4Trust acceleration program from EPFL Innovation Park and MassChallenge 2020 Finalist.

Adnovum

www.adnovum.com

- **Location:** Zurich - Switzerland
- **Leadership:** Thomas Zangerl : CEO, Beat Fluri: CTO, Leo Huber: Managing Director Security Solutions
- **No of Employees:** 650
- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Data Security & Cryptography, Governance & Compliance, Identity Access Management, Mobile & Web Security, Operational & Outsourcing Services, Resilience & Data Protection, Security Automation
- **Type:** Vendor

Description: Adnovum is a Swiss software company founded in 1988 which offers comprehensive support in the fast and secure digitalization of business processes from consulting and design to implementation and operation. Our core competencies include identity management, access management and security solutions. We serve multinational companies across banking, insurance, logistics and the public sector.

Today, 600+ employees work at our headquarters in Zurich and in our satellite offices in Bern, Lausanne, Budapest, Lisbon, Ho Chi Minh City, and Singapore.

Airlock. Security Innovation by Ergon Informatik AG

www.airlock.com 

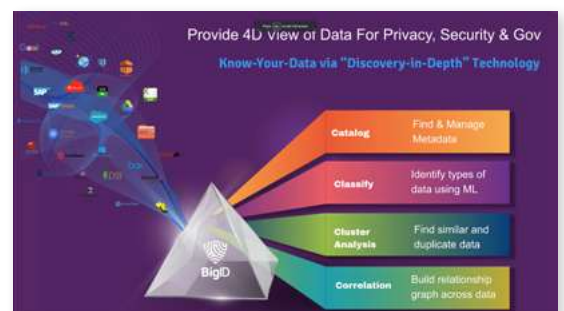

- **Location:** Zurich - Switzerland
- **Leadership:** *Gabriela Keller:* CEO, *Roman Hugelshofer:* Managing Director Application Security
- **No of Employees:** 350
- **Product Categories:** Application Security, Cloud Security, Identity Access Management, Infrastructure Security
- **Type:** Vendor
- **Description:** Airlock covers all functions of modern application security combining web application and API protection (WAAP) with customer identity management (CIAM) and strong authentication. It can be deployed on-premises, in the cloud or as lightweight security micro gateway, designed specifically for use in container environments, which helps DevOps engineers and application teams to protect their services from unauthorized or malicious access with little effort.

BigID Schweiz GmbH

www.bigid.com 

- **Location:** Zug - Switzerland
- **Leadership:** *Dimitri Sirota:* CEO, *Nimrod Vax:* Co-Founder & CPO, *Scott Casey:* COO and CFO, *Scott Mersy:* CMO
- **No of Employees:** 350
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Governance & Compliance, Identity Access Management
- **Type:** Vendor
- **Description:** BigID's data intelligence platform enables organizations to know their enterprise data and take action for privacy, protection, and perspective. Customers deploy BigID to proactively discover, manage, protect, and get more value from their regulated, sensitive, and personal data across their data landscape. BigID has raised over \$200 million in funding since its founding in 2016 and has been recognized for its data intelligence innovation as a 2019 World Economic Forum Technology Pioneer, named to the 2020 Forbes Cloud 100, a Business Insider 2020 AI Startup to Watch, and an RSA Innovation Sandbox winner.

BlackBerry

www.blackberry.com

- **Location:** Düsseldorf - Germany
- **Leadership:** John Chen: CEO, Mark Wilson: CMO, Charles Eagan: CTO
- **No of Employees:** 4,500
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Endpoint Security, Governance & Compliance, Identity Access Management, Industrial Network Security, Infrastructure Security, Mobile & Web Security, Operational & Outsourcing Services, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Vendor
- **Description:** Protect your organization with a modern unified endpoint security solution. Our end-to-end approach to cybersecurity is deeply rooted in Cylance® AI and machine learning, providing enhanced visibility and protection against current and future cyberthreats.

The BlackBerry cybersecurity portfolio of products and services are the most comprehensive end-to-end solutions in the industry. BlackBerry® Protect an AI-based endpoint protection platform (EPP) that prevents security breaches. BlackBerry® Optics an AI-driven endpoint detection and response (EDR) that works with BlackBerry Protect to keep you ahead of cyberattackers and your business secure, even when devices are offline and more.

Boltonshield AG

www.boltonshield.com

- **Location:** Zurich - Switzerland
- **Leadership:** Andreas Kemi: Chairman, Adam Baneth: CEO, Michael Ioannou: CTO
- **No of Employees:** 45
- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Endpoint Security, Infrastructure Security, Mobile & Web Security, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Vendor
- **Description:** Cybersecurity as a Service. At Boltonshield, we undertake the security of your company's IT infrastructure under one shield. Our holistic approach ensures the effective security management of organisational and individual cyber threats, within a cost-effective and affordable range of plans. Shield your total business through our fundamentally unique approach to cyber defense to protect your corporate assets wherever they are vulnerable or exposed to the threat of an attack. We serve our clients with both Penetration Testing as a Service and SOC as a Service ensuring a holistic cyber-resilient approach.

Visit our Booth in the Gallery Lounges for 10% discount from your first order

Byos

www.byos.io

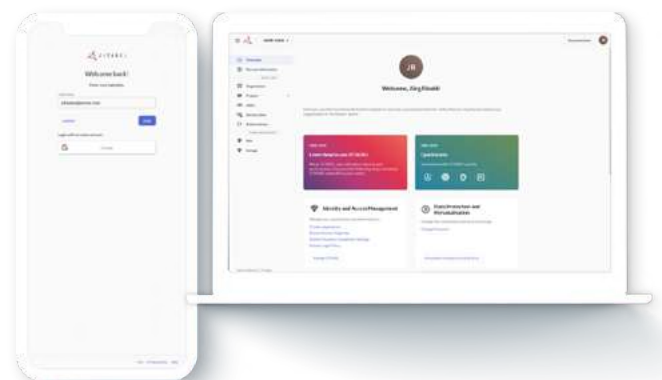

- **Location:** Halifax - Canada
- **Leadership:** *Matias Katz:* CEO, *Rob Valiton:* COO
- **No of Employees:** 18
- **Product Categories:** Industrial Network Security, Infrastructure Security
- **Type:** Vendor
- **Description:** Byos™ is the edge micro-segmentation company dedicated to helping organizations protect themselves from the risk of ubiquitous remote, guest and IoT network connectivity. Byos allows employees, contractors and devices to safely and securely connect to any network, regardless of their location or network environment.

CAOS AG

www.caos.ch

- **Location:** St. Gallen - Switzerland
- **Leadership:** *Florian Forster:* CEO, *Fabienne Gerschwiler:* CPO, *Maximilian Panne:* COO
- **No of Employees:** 11
- **Product Categories:** Application Security, Endpoint Security, Governance & Compliance, Identity Access Management, Operational & Outsourcing Services, Security Analytics
- **Type:** Vendor
- **Description:** Our core service ZITADEL provides you with an identity and access management platform that includes all the features necessary to integrate scalable solutions, without the need of building the login and access management yourself. ZITADEL can be used as SaaS in a public cloud, located in Switzerland, or as dedicated instance on customer's preferred cloud or private infrastructure. The platform solves multi-tenancy and self-service for B2B customers much better than most solutions, while providing a detailed and unlimited audit trail of all interactions.

CertX AG

www.certx.com 

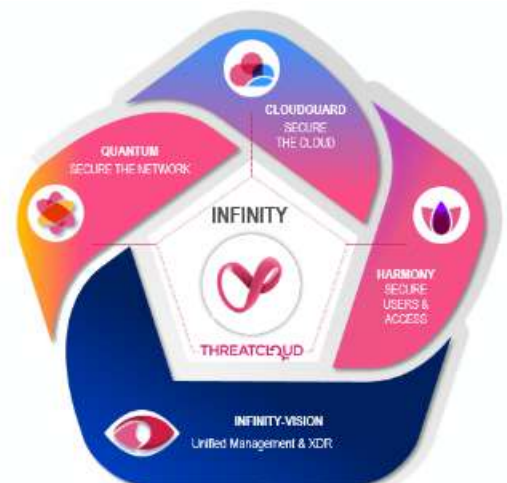

- **Location:** Fribourg - Switzerland
- **Leadership:** Jens Henner: CEO
- **No of Employees:** 10
- **Product Categories:** Application Security, Audit, Consulting & Training, Governance & Compliance, Industrial Network Security, Infrastructure Security, Operational & Outsourcing Services, Security Analytics
- **Type:** Vendor
- **Description:** First Swiss Certification Body for Functional Safety and Cyber Security accredited by Swiss Accreditation Service (SAS) with international validity Experts in Functional Safety and Cybersecurity with Swiss DNA and Quality. Innovations at heart, pragmatic in style. We co-write the standards for future automated systems, autonomous mobility and cyber security.

Check Point Software Technologies GmbH

www.checkpoint.com 

- **Location:** Ismaning - Germany
 - **Leadership:** Gil Shwed: CEO, Dr. Dorit Dor: CPO, Rupal Hollenbeck: CCO
 - **No of Employees:** 5,200
 - **Product Categories:** Cloud Security, Endpoint Security, Identity Access Management, Infrastructure Security, Mobile & Web Security, Security Automation
 - **Type:** Partner
 - **Description:** Check Point Software Technologies Ltd. is a leading provider of cyber security solutions to governments and corporate enterprises globally. Check Point Infinity's portfolio of solutions protects enterprises and public organisations from 5th generation cyber-attacks with an industry leading catch rate of malware, ransomware and other threats. Infinity comprises three core pillars delivering uncompromised security and generation V threat prevention across enterprise environments: Check Point Harmony, for remote users
- Check Point CloudGuard, to automatically secure clouds and Check Point Quantum, to protect network perimeters and datacenters, all controlled by the industry's most comprehensive, intuitive unified security management. Check Point protects over 100,000 organizations of all sizes.

Cisco

www.cisco.com

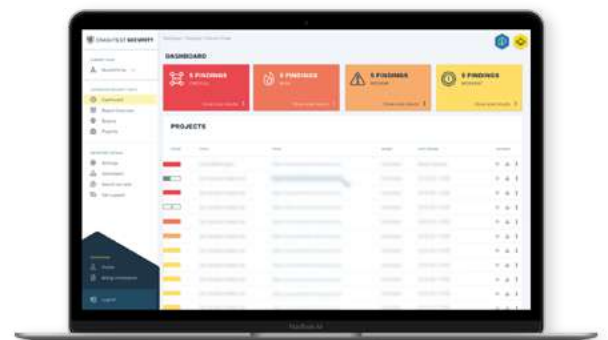

- **Location:** Wallisellen - Switzerland
- **Leadership:** *Chuck Robbins:* Chief Executive Officer Cisco Systems, Inc., *Daisy Chittilapilly:* President Cisco India & SAARC, *Anand Bhaskar:* Managing Director Service Provider Business Cisco India & SAARC
- **No of Employees:** 75,000
- **Product Categories:** Application Security, Cloud Security, Endpoint Security, Identity Access Management, Industrial Network Security, Infrastructure Security, Mobile & Web Security, Security Automation
- **Type:** Vendor
- **Description:** Cisco helps seize the opportunities of tomorrow by proving that amazing things can happen when you connect the unconnected. An integral part of our DNA is creating long-lasting customer partnerships, working together to identify our customers' needs and provide solutions that fuel their success.

Cisco Secure is focusing on defending against threats and safeguard the most vital aspects of your business with security resilience. Withstand unforeseen shocks and emerge stronger with Cisco Secure.

Crashtest Security GmbH

www.crashtest-security.com

- **Location:** Munich - Germany
- **Leadership:** *Felix Brombacher:* CEO, *René Milzarek:* CTO
- **No of Employees:** 10
- **Product Categories:** Application Security, Security Analytics, Security Automation
- **Type:** Partner
- **Description:** Crashtest Security is a SaaS-based security vulnerability scanner allowing agile development teams to ensure continuous security before every release. Our state-of-the-art dynamic application security testing (DAST) solution integrates seamlessly with your dev environment and protects multi-page and JavaScript apps, as well as microservices and APIs. Set up Crashtest Security Suite in minutes, get advanced crawling options, and automate your security. Whether you want to see vulnerabilities within the OWASP Top 10 or you want to go for deep scans, Crashtest Security is here to help you stay on top of your security and protect your code and customers.

CSF Computer Solutions Facility AG

www.csf.ch 

- **Location:** Pratteln - Switzerland
- **Leadership:** Herbert Spettel, CEO, Markus Haas, COO
- **No of Employees:** 10
- **Product Categories:** Audit, Consulting & Training, Cloud Security, Endpoint Security, Governance & Compliance, Identity Access Management, Industrial Network Security, Infrastructure Security, Mobile & Web Security, Operational & Outsourcing Services, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Partner
- **Description:** Reliability. High quality. Professional Security.

These are the three principles that govern our work here at CSF from an initial assessment to the implementation of a customised IT solution and later on, while operating and maintaining IT systems.

We streamline unwieldy IT structures, simplify processes and focus on smart, cost-cutting applications and services - regardless of whether a company is located here in Switzerland or on the other side of the world.

We provide our services under ISO 27001.

CuriX AG

www.curix.ai 

- **Location:** Baar - Switzerland
- **Leadership:** Ruedi Moll: CEO
- **No of Employees:** 15
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Endpoint Security, Governance & Compliance, Industrial Network Security, Infrastructure Security, Mobile & Web Security, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Vendor
- **Description:** We want monitoring to be simple, effective and intelligent. As a company that had been involved in IT, IT support and monitoring for years, we were fed up with incomplete and complicated monitoring. We had all this data and were not using it to our benefit. And that's how CuriX was born.

CYSEC SA

www.cysec.com 

- **Location:** Lausanne - Switzerland
- **Leadership:** *Patrick Trinkler:* Co-Founder & CEO, *Yacine Felk:* Co-Founder & COO, *Alexandre Karlov:* CTO, *Massimo Lucchina:* VP Corporate Business Development
- **No of Employees:** 25
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Endpoint Security, Resilience & Data Protection
- **Type:** Vendor
- **Description:** CYSEC SA is a data security company with headquarters at the EPFL Innovation Park in Lausanne, Switzerland, and offices in Paris, France and Singapore. CYSEC partners with leading cybersecurity research centres to develop technological innovations in the area of Confidential Computing and delivers its cybersecurity solutions for any vertical sector. CYSEC provides a solution for secure container environments that solves the challenge of securing data in use, called CYSEC ARCA trusted Operating System.

Cyverse AG

www.cyverse.ch 

- **Location:** Zurich - Switzerland
- **Leadership:** *Shira Kaplan:* CEO
- **No of Employees:** 11
- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Data Security & Cryptography, Identity Access Management, Industrial Network Security, Mobile & Web Security, Operational & Outsourcing Services, Security Automation
- **Type:** Partner
- **Description:** Since its inception in 2016, Cyverse AG has established itself as the leading provider of next-gen cyber-security solutions for enterprises in Europe. Cyverse offers a broad spectrum of advanced cyberdefense services & technologies that are used by European banks, insurances, energy & utilities, industrial manufacturers, consumer goods, and pharmaceutical companies, to improve their cyber-security posture. Our activity is supported by our first-hand familiarity with the Israeli cyber-security ecosystem, in which our Founder, Shira Kaplan, actively participated while serving in the 8200 Elite Technology Unit of the Israeli Intelligence.

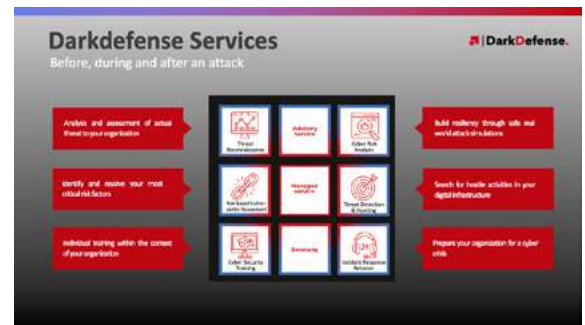

Our Services

Cyber-Security Assessment & Improvement  We provide organizations with a methodological approach to assessing their cyber maturity level. Our report covers domains including cross-organizational security, malware, policies and procedures. More >	Penetration Testing  We can help you evaluate the security of your systems and identify the weakest security points in your organization's perimeter that pose the most threatening risk. We offer solutions. More >	Cyber-awareness Training  We offer training resources for employees, management and boards to better understand the cyber crime world, identify phishing effectively, and secure the brand's organizational risk state. More >
Cyber-Defense for Small & Medium Enterprises  We have developed a special offering for SMEs, which is affordable, and that reduces the risk related to cyber-security, while ensuring a better experience of our customer's experience. More >	CISO As a Service  We offer to support you with our CISO As a Service offering, in order to bridge between your budget needs and your company's cyber risk. More >	Incident Response  We provide our customers with an exclusive 24/7 hotline while managing cyber incidents within a predetermined period of time. More >

Darkdefense GmbH

www.darkdefense.ai 

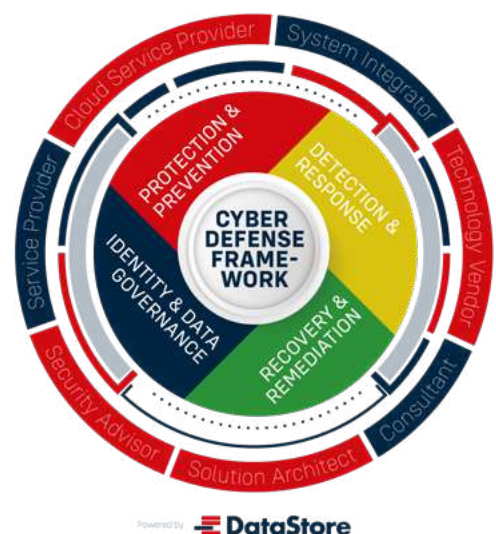

- **Location:** Karlsruhe - Germany
- **Leadership:** Andre Engel: CEO, Dr. Michael Teschner: CMO
- **No of Employees:** 5
- **Product Categories:** Infrastructure Security, Operational & Outsourcing Services, Security Analytics
- **Type:** Reseller
- **Description:** Darkdefense is an innovative startup based out of Germany with more than 100 years combined experience in defending critical infrastructure environments against cyber threats. We offer consulting, solutions and managed services for organizations of all sizes to improve their cyber resilience. We work with you on the basis of integrity, trust and openness. Our services are based on the latest technologies and methods to identify, characterize and prioritize risk factors in your digital infrastructure. In collaboration with your security teams, we support you to protect your organization against cyber threats and to improve your cyber resilience.

DataStore AG

www.datastore.ch 

- **Location:** Spreitenbach - Switzerland
- **Leadership:** Stefan Beeler: CEO
- **No of Employees:** 40
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Endpoint Security, Identity Access Management, Infrastructure Security, Mobile & Web Security, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Partner
- **Description:** DataStore AG is the leading specialist for holistic Datacenter & Cloud solutions and for integrated Cyber Security technologies since its foundation in 1977. Trust, loyalty and individuality are very important attitudes in our day to day work with our customers and vendors. Our "Network of Opportunities" a network of partners specialized in all different areas of the IT landscape, with over 400 selected partners and service providers is composed of personalities, technologies and ideas. Defender | Data Centric Security

www.defender.com 

- **Location:** Rotkreuz - Switzerland
- **Leadership:** Charly Graf: CEO, Konstantin Stassinakis: COO, Sarbajit Das: CTO
- **No of Employees:** 6
- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Data Security & Cryptography, Governance & Compliance, Mobile & Web Security, Operational & Outsourcing Services, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Reseller
- **Description:** Defender is a specialist in understanding end-to-end data protection requirements and introducing technical measures and security solutions. We protect sensitive data from the intrusion of any third party, unwanted disclosure, or data leakage. We have years of experience in implementing technical security solutions to protect sensitive data from any suspicious activity with dynamic masking, tokenization, encryption at source or in motion. The technical measures we implement are essentially IT-based solutions that help in for proactive threat hunting and incident response support. We integrate solutions from Stealthbits, SecuPi, BigID, Comcrypto, Netskope and many more.

DGC Switzerland AG

www.dgc.org 

- **Location:** Zurich - Switzerland
- **Leadership:** Andreas Pankow: CEO, Philip Saladin: Head of Sales Switzerland
- **No of Employees:** 100
- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Data Security & Cryptography, Governance & Compliance, Industrial Network Security, Infrastructure Security, Operational & Outsourcing Services, Resilience & Data Protection, Security Analytics
- **Type:** Partner
- **Description:** As one of the leading providers of cyber security, DGC supports companies in using the opportunities offered by the digital transformation – and in minimizing the associated risks.

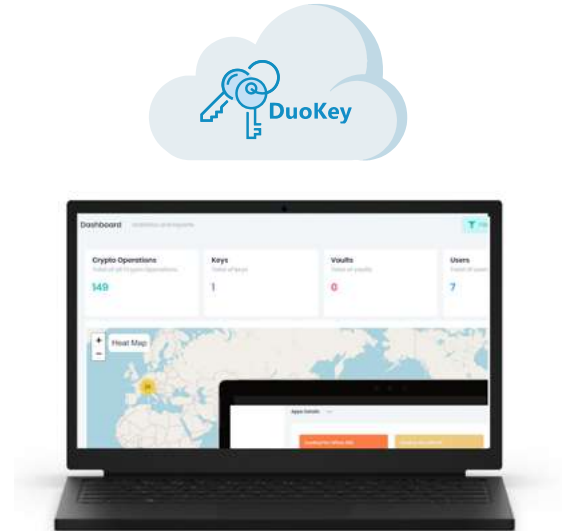

With our 360° cyber security approach and our own products, we ensure a comprehensive cyber security and IT related risk management. Whether through a simulated hacker attack, our top-notch vulnerability scanner cyberscan.io®, a cyber security awareness training, advice on security standards or emergency services in the event of IT security incidents: With us you receive comprehensive solution packages for your cyber security – customized, up-to-date and from a single source.

DuoKey SA

www.deukey.com 

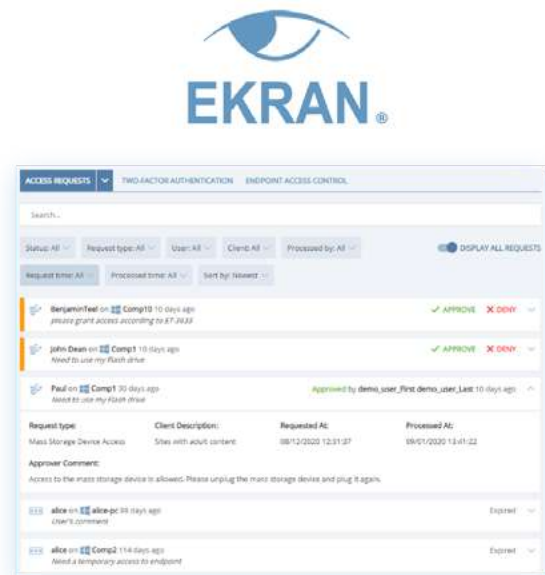

- **Location:** Lausanne - Switzerland
- **Leadership:** *Nagib Aouini*: CEO
- **No of Employees:** 11
- **Product Categories:** Application Security, Cloud Security, Data Security & Cryptography, Infrastructure Security, Resilience & Data Protection
- **Type:** Vendor
- **Description:** DuoKey is a cybersecurity startup founded by experienced entrepreneurs and cryptographers. We are partnering with one of the top security firm that patented an innovative Multi-Party Computation (MPC) scheme bringing 8+ years of research in MPC and privacy-preserving encryption. We enable customers to confidently move sensitive workloads to the cloud where they can benefit from strong security controls that help meet internal and external compliance requirements. DuoKey Key Management Service is based on innovative Multi-Party computation (MPC) that provide encryption services but works also with FIPS-140 Level 3 or 4 HSM (Hardware Security Module).

Ekrans System

www.ekransystem.com 

- **Location:** Newport Beach - United States
- **Leadership:** *Elena Gamassenko*: Marketing Manager
- **No of Employees:** 50
- **Product Categories:** Cloud Security, Data Security & Cryptography, Endpoint Security, Governance & Compliance, Identity Access Management, Industrial Network Security, Infrastructure Security, Resilience & Data Protection, Security Analytics
- **Type:** Vendor
- **Description:** Ekrans System® is a full cycle insider threat management platform that focuses on three core goals: deter, detect, and disrupt. DETER: Manage identities and control access, including for privileged (PAM) and third-party users.

Endpoint Protector by CoSoSys

www.endpointprotector.com 

- **Location:** Cluj-Napoca - Romania
- **Leadership:** *Roman Foeckl:* CEO, *Jonathan Orford:* CTO, *Tim Deluca-Smith:* CMO
- **No of Employees:** 100
- **Product Categories:** Data Security & Cryptography, Endpoint Security
- **Type:** Vendor
- **Description:** Endpoint Protector is an all-in-one Data Loss Prevention solution for Windows, macOS, and Linux computers, Thin Clients, and Desktop-as-a-Service platforms. The solution protects from data leaks, theft, and exfiltration, it minimizes the risk of insider threats and helps companies to reach compliance with data protection regulations such as the GDPR, PCI DSS, TISAX and more. With its modern intuitive interface and its smooth integration as Virtual Appliance or through cloud services (Amazon Web Services, Microsoft Azure, and Google Cloud Platform), Endpoint Protector is easy to install and does not require advanced technical knowledge to run, making it accessible and user-friendly solution.

Exeon Analytics

www.exeon.com 

- **Location:** Zurich - Switzerland
- **Leadership:** *Dr. David Gugelmann:* CEO & Founder, *Carola Hug:* COO, *Gregor Erismann:* CCO
- **No of Employees:** 30
- **Product Categories:** Application Security, Cloud Security, Endpoint Security, Governance & Compliance, Industrial Network Security, Infrastructure Security, Mobile & Web Security, Resilience & Data Protection, Security Analytics
- **Type:** Vendor
- **Description:** Exeon Analytics AG is a Swiss cybertech company specialising in the protection of IT and OT networks and OT infrastructures through AI-driven security analyses. The Network Detection & Response (NDR) platform "ExeonTrace" offers companies the possibility to monitor networks, immediately detect cyber threats and thus effectively protect their own company's IT landscape - quickly, reliably and completely hardware-free. The self-learning algorithms for detecting anomalies in network activity were developed at ETH Zurich and are based on more than ten years of academic research. Exeon has received several awards (most recently as a top 3 high-tech company at the Swiss Economic Forum in 2021).

EYRAPPROACH

www.eyra-group.ch 

- **Location:** Vessy - Switzerland
- **Leadership:** *Yves Froppier*: CEO, *Juan-Carlos Lopez Ruggiero*: Cyber Security Director
- **No of Employees:** 80
- **Product Categories:** Audit, Consulting & Training, Cloud Security, Endpoint Security, Governance & Compliance, Identity Access Management, Infrastructure Security, Mobile & Web Security, Operational & Outsourcing Services, Resilience & Data Protection
- **Type:** Vendor
- **Description:** EYRAapproach is a brand-new joint venture established between EYRA Group – a Swiss Cloud pure player – and APPROACH – the leading Belgium cybersecurity expert. We have combined our strengths to create a specialized cybersecurity and privacy Swiss company. Together, we build trust for your business in the digital world.

Leveraging a large pool of certified professionals, we strengthen your cyber resilience posture, by adopting a risk-based and layered security strategy.

FTAPI Software GmbH

www.ftapi.com 

- **Location:** Munich - Germany
- **Leadership:** *Daniel Niesler*: CEO
- **No of Employees:** 75
- **Product Categories:** Data Security & Cryptography, Security Automation
- **Type:** Vendor
- **Description:** Munich-based software company FTAPI offers a comprehensive platform for all aspects of secure data exchange and automation, connecting people, data and systems. Since 2010, more than 1,200 companies and more than one million active users trust in the products SecuTransfer, SecuRooms, SecuForms and SecuFlows - no matter if it is about sending or receiving data, structured data inbound, sharing confidential information or secure automation of processes.

GATEWATCHER

www.gatewatcher.com 

- **Location:** Paris - France
- **Leadership:** *Jacques de La Rivière:* CEO & Co-Founder, *Philippe Gillet:* CTO and Co-Founder
- **No of Employees:** 60
- **Product Categories:** Infrastructure Security, Resilience & Data Protection, Security Analytics
- **Type:** Vendor
- **Description:** European leader in intrusion detection and advanced threat detection, GATEWATCHER has been protecting the critical networks of large companies and public institutions since 2015. Our solutions provide an immediate improvement to the current cybersecurity challenges and an adapted response to the growing needs in threat detection of organizations. Our vision is to offer a flexible, scalable, innovative, open to new technologies and artificial intelligence without disrupting the existing architecture. But also to facilitate the operations of CyberSecurity teams to enable them to be more efficient in prioritizing their remediation actions.

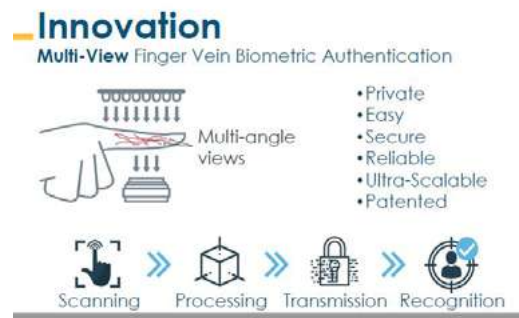

GATEWATCHER

GLOBAL ID

www.globalid.swiss 

- **Location:** Lausanne - Switzerland
- **Leadership:** *Lambert Sonna Momo*: CEO
- **No of Employees:** 9
- **Product Categories:** **Application Security**, **Data Security & Cryptography**, **Identity Access Management**
- **Type:** Vendor
- **Description:** Electronic identity is a growing issue for consumers, organisations, citizen, and national authorities. In the virtual world, anyone with intent can impersonate anyone else. Private and public organisations that interact with citizen on the internet operate on the hope that you are who you say you are. Biometrics are the solution because they allow the authentication of an individual by a unique physical feature, effectively like a unique key we each possess. To satisfy these legitimate needs, Global ID provides authentication technology based on invisible keys that can only be used explicitly: multi-views of finger veins, hidden and obtainable only with the knowledge of the individual.

Hacknowledge

www.hacknowledge.com 

- **Location:** Prévêrenge - Switzerland
- **Leadership:** *Paul Such*: CEO

- **Product Categories:** Application Security, Audit, Consulting & Training, Cloud Security, Data Security & Cryptography, Endpoint Security, Governance & Compliance, Identity Access Management, Industrial Network Security, Mobile & Web Security, Resilience & Data Protection, Security Analytics, Security Automation
- **Type:** Vendor
- **Description:** Magnet Forensics is a developer of digital investigation software that acquires, analyzes, reports on, and manages evidence from computers, mobile devices, IoT devices and the cloud. The company's software is used by more than 4,000 public and private sector organizations in over 90 countries and has been helping investigators fight crime, protect assets and guard national security since 2011.

Nect GmbH

www.nect.com 

- **Location:** Hamburg - Germany
- **Leadership:** Benny Bennet Jürgens: CEO & Founder, Carlo Ulbrich: CSO & Co-Founder
- **No of Employees:** 100
- **Product Categories:** Data Security & Cryptography, Governance & Compliance, Identity Access Management, Operational & Outsourcing Services, Security Automation
- **Type:** Vendor
- **Description:** Nect GmbH founded in 2017 by Benny Bennet Jürgens and Carlo Ulbrich and based in Hamburg, stands for the implementation of trust services with advanced technology. The patented and eIDAS certified Robo-Ident technology developed by Nect is an AI-based online identification. Users can identify themselves independently, from any location, without waiting with an ID document and a selfie video. State-of-the-art artificial intelligence methods are used to check the real-time of the recording, the vividness and legitimacy of the user, the legitimacy of the ID document, and to detect fraud attempts at an early stage.

Nexis GmbH

www.nexis-secure.com

- **Location:** Regensburg - Germany
- **Leadership:** Dr. Ludwig Fuchs: CEO
- **No of Employees:** 38
- **Product Categories:** Governance & Compliance, Identity Access Management
- **Type:** Vendor
- **Description:** Nexis is an expert company specialized in Identity and Access Management (IAM) and vendor of NEXIS 4, the technology-leading Identity Analytics & Governance Platform.

NEXIS 4 provides access privilege scans, risk analysis and visual (re-)modeling of entitlement structures.

The platform simplifies entitlement and role maintenance and supports adherence to compliance requirements.

NEXIS 4 also integrates the business using easily configurable dashboards and services.

Benefits are amongst others increased IT security and compliance, greater automation in role and rights management and reduced administrative activities in IAM.

Additionally, Nexis offers high-quality IAM consulting services including road maps, current state analysis, process modeling and best practices.

NextRay AI Detection & Response

www.nextray.ai

- **Location:** Santa Clara, CA - United States
- **Leadership:** Sercan Okur: VP of Technology
- **No of Employees:** 30
- **Product Categories:** Cloud Security, Industrial Network Security, Security Analytics
- **Type:** Vendor
- **Description:** NextRay AI is the pioneer in real-time cyber attack detection. The NextRay AI platform continuously monitors network traffic to detect any stage of a cyber attack. The NextRay automatically prioritizes attacks that pose the greatest business risk, allowing organizations to focus time and resources more effectively. NextRay detects elusive and dangerous threats that have breached network perimeter defenses by analyzing network behavior.

NordLayer

www.nordlayer.com 

- **Location:** Vilnius - Lithuania
- **Leadership:** *Donatas Tamelis:* GM, *Juta Gurinavičiūtė:* CTO, *Martynas Paškauskas:* Head of Development
- **No of Employees:** 127
- **Product Categories:** Cloud Security, Endpoint Security, Identity Access Management, Resilience & Data Protection
- **Type:** Vendor
- **Description:** NordLayer is an adaptive network access security solution for modern businesses — from the world's most trusted cybersecurity brand, Nord Security. We help organizations of all sizes to fulfill scaling and integration challenges when building a modern secure remote access solution, within an ever-evolving SASE framework.

Quick and easy to integrate with existing infrastructure, hardware-free, and designed with ease of scale in mind, NordLayer meets the varying growth pace and ad-hoc cybersecurity requirements of agile businesses and distributed workforces today.

NordLayer

The screenshot displays the NordLayer website. On the left, there's a sidebar with the Nord Security logo and a list of products: NordLayer, NordPass, and NordLocker. The main content area is titled 'NordLayer' and 'Network Access for Modern Businesses'. It describes how NordLayer integrates with modern security frameworks to provide secure access to business resources. Below this, it lists various features and benefits, including secure access management, BYOD policies, and secure remote access. The bottom section highlights partnerships with Microsoft, IBM, and AWS, and provides statistics: 6,000+ businesses protected, 30+ global server locations, and a 4.7 rating on G2.

OneVisage

www.onevisage.com
